**Branopac GmbH**  
**Gottlieb-Daimler-Str. 18 - 20**  
**35423 Lich**

The above organization is hereby entitled, on the basis of certificate No. 14 07 90256 001 and the appendant test report, to affix the certification body's certification mark shown below to the following product (see description below).

**Requirements**

The product fulfils the requirements in accordance with the test basis MUC KSP A 1001 "proceeding and requirements with examinations of corrosion protection foil and / or corrosion protection paper with VCI (Volatile Corrosion inhibitor) on corrosion".

**Product description:**

- BRANOFOL M1 VCI corrosion protection foils for steel and iron
- BRANOFOL M3 VCI corrosion protection foils for steel and iron and non-ferrous metals
- MULTI GUARD corrosion protection papers for non-ferrous metals, iron and steel
- FERROGARD corrosion protection papers for steel, iron and casting
- BRANOROST U corrosion protection papers for non-ferrous metals, iron and steel
- BRANOROST R corrosion protection papers for steel, iron and cast iron

**Material / characteristic:**

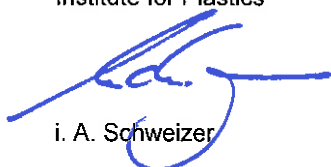

The above described corrosion protection products constantly deliver small quantities of corrosion protection active substances. In packagings with these papers/foils a protective atmosphere develops, which prevents corrosion reliably with metal parts. This corrosion protection affects on contact and distance.

The product informations and / or data sheets are to be particularly considered general and for the scope of protection. Basis is the testing instruction MUC-KSP-A 1001 for increased requirements concerning the corrosion protection.

This certificate is valid until July 2017.  
 Annual monitoring of production.
